

KQ: Why does the weather change? **Topic:** Seasonal Changes Spring and Summer

Year Group: 1

What I should already know:

- 1. There are times when it is hot outside and there are times when it is cold outside.
- 2. The months of the year.

What I will know by the end of the unit:		
ns: ctober, November uary, February ay gust	<u>What is a</u> <u>season?</u>	
nter to spring, it gets	What	
begins to rise. Fing are: duous trees. In to hatch. The nights become shorter. Such as Easter and St. The nights become shorter. The nights become shorter. Such as Easter and St. The nights become shorter. The nights bec	happens in Spring?	
ring to summer it gets e temperature has risen.	<u>What</u> <u>happens</u> <u>in</u> Summer?	

Vocabulary:

New vocabulary will be listed in green.

ColdIf it is cold, the temperature is very lowConkersround brown nuts which come from horse chestnut treesDay lengthThe amount of time where there is daylight.Day lightDaylight is the natural light that there is during the day, before it gets darkDeciduousa tree that loses its leaves in the autumn every yearFreezeWhen it freezes outside, the temperature falls below 0 degreesFrostthe ground becomes covered in ice crystalsHibernateAnimals that hibernate spend the winter in a state like a deep sleepcceIce is frozen waterWigratewhen animals move at a particular season from one part of the world to anotherMonthsone of the twelve times of time that a year is divided intoVaturethe animals, plants, and other things in the world that are not made by peopleRainRain is water that falls from the clouds in small dropsSeasonthe main times of year which can be divided and which have their own typical weatherSlightlya little bitSnowsoft white bits of frozen water that fall from the sky in cold weatherSpringthe season between spring and autumn when the weather becomes warmer and plants start to grow againSummerthe season between spring and autumn when the weather is usually warm or hotWarmwhen the sky and air outside are like, such as cold or sunny.Windywhen the wind is blowing	Autumn	Autumn is the season between summer and winter when the weather becomes colder and the leaves fall off the trees
