

Earth and Space: Are we ever truly still?

What I will know by the end of the unit

- I can explain how what causes day and night.
- I can describe the Earth, Moon and Sun as approximate spherical bodies.
- I can describe the movement of the moon.
- I can describe the movement of the Earth and other planets relative to the sun in the solar system.

Vocabulary

- Asteroid
- Axis
- Comet
- Galaxy
- Gravity
- Leap year
- Meteorite
- Orbit
- Planet
- Shadow
- Solar system
- Sphere
- Spin
- Star
- Time zones
- Universe

What I should already know

- We have four seasons (autumn, winter, spring, summer).
- The sun is a source of light but the moon is not.
- Know that a shadow is caused when an object blocks light passing through it.
- The properties of a sphere.
